DAHLIAS OF LATER INTRODUCTION

BONNIE LASSIE. A 1929 introduction of Bonnie Brae Gardens. Beautiful 7 to 8 inch blooms with field culture. Seashell pink cactus blooms shading to light yellow at base of the long narrow wavy petals. Full to the center from first to last blooms. Excellent long strong stems, good as a cut flower as well as a garden beauty. Greatly admired by all who saw the tall stately beauty, \$7.50 net.

G. B. GITHENS, (Cact.)—Sulphur yellow. Good clear yellow cactus Dahlias are very rare. This is reliable, profuse and with nearly every good quality, 50c net.

AMBASSADOR. Color, soft yellow center with salmon, amber and pink shadings, gradually deepening towards the tips and outer floral rays. The blending of these colors captivates all. The flowers are large and set just right on perfect stems. A strong grower and free bloomer, net \$1.00.

EAGLE ROCK BEAUTY—A more beautiful combination of pink and cream than is displayed in this glorious creation would be difficult to imagine. Vigorous in growth with good habits and stems which hold flower erect. Immense blooms are full to center and produced in abundance, \$3.50 net.

ELITE GLORY. A monstrous flower of a brilliant rich red, without any apparent purple or maroon shading. Blooms and foliage gigantic in size. This Dahlia is regarded as a "break" in the Dahlia World and cannot be surpassed for spectacular effect either for exhibition or garden purposes. Especially fine keeping qualities as a cut flower, \$3.00 net.

HELEN HOLLIS. A gigantic, deep scarlet flower; the best of the red show dahlias, 50c net.

JERSEY'S BEACON. Chinese scarlet. Five to 8 inches. Excellent, \$1.75 net.

MARMION. Strontian yellow with faint to strong shadings of bronze. Six to 10 inches. Stems fair to slightly pendant. A brilliant and strikingly large golden flower. Vigorous, \$3.50 net.

MARGARET MASSON. Silvery rose purple. One of the most beautiful in our fields. Profuse. Five to 8 inches. Vigorous. Tall, \$1.50 net.

MRS. ETHEL F. T. SMITH. H. C. Creamy white shading to a lemon tint in the center, 50c net.

PERFECTION. Orange buff, good petals and outline, ball type, 25c.

POP STEWART. Giant decorative. This is a remarkable flower of great size. In the young state the petals appear rosy pink, but as it matures, the flower undergoes a complete transformation, toning out into a most exquisite shade of the purest lilac-pink, 75c net.

PRIMULA REX. Very light cream or primrose yellow. We regard this as one of the best decorative Dahlias in existence. The flowers are immense, with every good quality. Far ahead of anything in its class and color. Profuse bloomer, flowers easily from 9 to 12 inches, medium to tall habit of growth, \$2.75 net.
